# 2607-5101 Assignment 3 Case Briefing - Campus Facilities Issue Register

## 2607-5101 Assignment 3 Case Briefing - Campus Facilities Issue Register

### Business Context

A tertiary education provider needs a simple application to record and manage facilities issues reported in classrooms, offices and shared spaces.

Issues may include faulty lighting, damaged furniture, heating problems and minor maintenance requests.

Currently, staff record issues manually, making it difficult to track outstanding problems and identify which issues require attention.

The provider wants a **Campus Facilities Issue Register** to help facilities staff maintain accurate records and monitor the status of reported issues.

### Business Requirements

The application must allow facilities staff to:

- Add new facilities issues.
- View existing issue records.
- Update issue details, priority and status.
- Delete records when required.
- Search or filter issues by location, category or status.

### Information to Be Recorded

Each facilities issue may include:
